

## Topic of the Month for January, 2015 - Fly the Aircraft First!

NTSB accident data suggest that pilots, while distracted by less essential tasking, have lost control of their aircraft and crashed. In this seminar we will discuss the role of distractions and inappropriate priorities in aircraft accidents. We will offer tips to maintain proficiency and control discipline, and provide information on prioritization and dealing with distractions.

**Directions:** Main building upstairs. If flying in, taxi to Salem Air Center for parking.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
